

Pacific Circle Directory, Part I:

Individuals

Updated: February 2022

The Pacific Circle was established in 1985 by Profs. P. F. (“Fritz”) Rehbock (University of Hawai’i at Manoa) and Roy MacLeod (University of Sydney), as a Scientific Commission of the International Union for the History and Philosophy of Science. The Circle encourages research and exchanges in the history and practice of science, rather broadly defined, in the Indo-Pacific Region. Members’ interests include, for example, Botany and Botanical Sciences, Exploration, Health and Medicine, and study those for the Pacific Islands, Australia, China and elsewhere in the region. The Circle publishes its *Newsletter* every other Monday and the *Bulletin* every October and April. Those publication includes bibliographies of recent articles, book chapters and books, calls-for-papers for conferences, research notes and queries, and book reviews. Please email the editor at peterh@hawaii.edu if you would like to receive one or both, and if you would like to share your publications, research questions, and such.
