**CONFERENCES, WORKSHOPS, and LECTURES**

**Britain & the World Conference, University of Plymouth, U.K., 15-17 June 2002**

This is, in effect, the 2020 conference, postponed for obvious reasons by two years. It will be in-person, with some provision for virtual participation. Please state your preference with your proposal.

We're delighted to be able to announce our two plenary speakers: Claire Jowitt (UEA) and Stuart Ward (University of Copenhagen). The conference will also feature John M. MacKenzie as we launch his festschrift, *The MacKenzie Moment and Imperial History*, and 12 other books published in our series with Palgrave Macmillan since we last met.

As ever, the conference is concerned with interactions between Britain and the wider world from the sixteenth century to the present and will highlight the importance of transnational perspectives. As a conference and society concerned with British Studies, we welcome papers on all topics and periods. Given that 2020 marked the 400<sup>th</sup> anniversary of the Mayflower

voyage, and much commemoration continues, we're especially keen to see papers that engage with transatlantic relations; the movement of peoples, ideas, and goods; maritime history; port cities, and urban spaces.

We accept individual twenty-minute talks as well as complete panel submissions and roundtables. Abstracts should be 250-300 words. Panels are expected to consist of three or four papers and should be submitted by one person who's willing to serve as the point of contact. Complete panels should also include a chair. In addition to abstracts for each individual paper, panel and roundtable submissions should also include a 100–150-word introduction describing the main theme. The conference does not discriminate between panels and individual paper submissions, nor between graduate students and established academics.

Please note that 2022's, unusually, is a Wednesday-Friday, not Thursday-Saturday, conference.

We'll be awarding a prize for the best conference paper, which will include conditional acceptance for publication in the peer-reviewed *Britain and World* journal (Edinburgh University Press). All conference participants are eligible.

Palgrave History's commissioning editor will be at the conference. We encourage delegates who have books of their own recently published or in press to bring promotional material which we'd be happy to distribute. The editor of our journal *Britain and the World* will also be present, and both book series and journal editors would be very happy to discuss proposals and submissions to each.

The conference hub – where the publishers will be based, and where lunch and refreshments will be served – is the Sherwell Centre, a converted church on the university campus, with parallel and plenary sessions in next-door Portland Square. Sherwell and Portland are ten minutes' walk from both Plymouth Station and the conference hotel, Jury's Inn.

The conference icebreaker will be held on the Tuesday evening in Sutton Harbour, ten minutes' walk from the hotel; a welcome reception will follow on the Wednesday; the Conference Dinner on the Thursday will be at the magnificent Stonehouse Barracks which overlooks Plymouth Sound; and our traditional last-night outings downtown will be in and around the Barbican.

Getting to and from Plymouth may be via a direct train line with London Paddington, direct bus service from London Heathrow, and London Victoria, or flights to nearby Newquay or Exeter airports.

All submissions for inclusion in the conference should be received by Friday, 7 January 2022 with decisions announced by Friday, 4 February 2022. Submissions should be made via our online portal: <https://forms.gle/qCgtLbhiho2jhAfp6>.

Updates regarding the conference will periodically be posted on the BATW website. It is hoped that participants will be able to call upon their departments for hotel and transportation expenses as the Society – which is non-profit – is not able to offer financial support.

On Twitter our @britishscholar hashtag is #BATW2022. Registration for the Conference will open in early 2022.

Conference registration rates will be forthcoming, along with lodging details.

If you have any questions about the conference, please feel free to email [contact@britainandtheworld.org](mailto:contact@britainandtheworld.org).

## **Undergraduate Conference on Science, Technology, Medicine, and Society**

To be held online by the University of Toronto on March 24-25, 2022

Conference Theme: The Interaction of Science, Technology, & Medicine and Politics

The Sixth International Undergraduate Research Conference on Science, Technology, Medicine, and Society at the University of Toronto invites student submissions that examine the interaction between politics and science, including science policy, science funding, politicization of science and scientization of politics, political influences on science, as well as other topics regarding the mutual influence between science and politics. We also invite submissions on other issues related to STM in historical and present societies throughout the world. As an interdisciplinary gathering, we encourage students to submit papers from across the arts, humanities, social sciences, and natural sciences—check out our Facebook page for past presentations.

We are specifically interested in current issues surrounding: COVID pandemic, climate change, data privacy, AI and warfare, vaccine hesitancy.

Keynote Speaker: Maya J. Goldenberg, Associate Professor, Philosophy, College of Arts, University of Guelph. Author of *Vaccine Hesitancy: Public Trust, Expertise, and the War on Science* (University of Pittsburgh Press, 2021)

It has long been thought that the relation between science and politics is an uneasy one: politics covets power, while science seeks apolitical truth. Scholars from the history, philosophy, and social studies of science have investigated the interactions between science and politics to unearth a complex web where science and politics co-evolve and are co-produced.

What interactions lead science to shape political policies, and political environments to influence science?

What lies at the intersection of science and politics?

Interested students should submit an abstract (250 words) and a brief bio (50 words) by January 10, 2022 using the following link: [https://easychair.org/conferences/submission\\_new?a=27678424#{fr:YswyLK6UDfv3}](https://easychair.org/conferences/submission_new?a=27678424#{fr:YswyLK6UDfv3}). (Note that students will need to create an easychair account to submit an abstract, but registration is simple)

If you have any questions, please contact:

Hannah Rajput at [hannah.rajput@mail.utoronto.ca](mailto:hannah.rajput@mail.utoronto.ca)

All applicants will be notified by February 7, 2022.

Sponsored by: IHPST, ASSU, HPSUS, Victoria College.

### **Laureate Seminar: Population Modern History, University of New South Wales**

Hosted by the Laureate Centre for History and Population at the University of New South Wales, Sydney, this seminar covers new and forthcoming research on the history and legacies of global population policy and includes presentations this year on China, India, colonial South Africa, and interwar England, among other chronological and temporal contexts.

A full copy of the schedule is available at:

<https://historyandpopulation.com/seminar/>

Registration for a Zoom link is available at:

<https://forms.gle/m62AxbztZHSQuS2L6>

### **ESfO Conference, June 2-5, 2022, Ajaccio, Corsica**

The conference website is now online at the following address:  
<https://www.pacific-studies.net/conferences/esfo2022>

Paper submissions are now open, and we invite you to examine the 26 panels/sessions available, if necessary to get in touch with the panel convenors, and to submit your papers through the website (and not by sending it directly to the panel convenors).

#### **Instructions for submitting a paper:**

1) To submit a paper, you need to have an account on <https://www.pacific-studies.net/> and

be logged in before you progress to the conference webpage. You can log in in the Members Corner (top right). If you don't remember your password, please click on "I forgot my password." If your email is recognized, you will receive an automatic email from [webmaster@pacific-studies.net](mailto:webmaster@pacific-studies.net). Please also check your spam folder.

2) Please allow [webmaster@pacific-studies.net](mailto:webmaster@pacific-studies.net) to send you messages. Indeed, this automatic email address will also send you updates relevant for your paper, the panel, and the conference in general. If you have any trouble or don't remember which email address you used to create your account, please get in touch with me.

3) Once logged in, please do update your profile, since this is what will be printed on the website and in the conference booklet when your paper is accepted.

4) If you are absolutely certain that you have not created an account yet, please create one in the "Member's Corner." And please provide at least your institutional affiliation in your profile.

5) Once logged in, please go to the conference webpage: <https://www.pacific-studies.net/conferences/esfo2022>, select your panel/session and submit your paper.

6) Please note that your summary should not exceed 1500 characters, spaces included.

7) Note that each person can submit one paper to one session.

8) The paper submissions will be automatically redirected to the session/panel convenors. It is their responsibility and freedom to accept or reject papers.

9) If you have any problem, please get in touch with [webmaster@pacific-studies.net](mailto:webmaster@pacific-studies.net) or directly with me.

- file (e.g. Smith\_CV).

## **European Society for the History of Science (ESHS) Tenth Biannual Conference**

This year's edition will take place in Brussels, Belgium, and is organized by the National Committee for Logic, History and Philosophy of Science ([NCLHPS](#)) of Belgium.

### **Theme:**

The theme of the ESHS 2022 conference will be Science Policy and the Politics of Science, a topic with resonance over these past years. The outbreak of Covid-19 has called attention to the shifting legitimacy of science-based expertise and the reliance on expert authority in policy making by state and national governments. This serves as an indication for a need to understand the role of scientists and scholars in society within a broader historical frame.

From a historiographical viewpoint, the conference will showcase the latest investigations of scientific institutions across time and space. Beyond the traditional views on history of science governance and management, recent studies have enhanced our understanding of scientific knowledge and practice from global, epistemological, and gendered perspectives, encompassing new experimental and digital methodologies.

We welcome proposals on all periods, geographic locations, and areas of specialization, addressing topics including, but not limited to, the following:

- Institutions, places, and spaces of scientific knowledge: center and peripheries
- Patronage and science funding: public and private interests
- Theory and practice in scientific and technical expertise
- Material, visual, and textual cultures in the institutionalization of the sciences
- Circulation and networks of scientific knowledge
- Colonial histories and heritage in the sciences
- Gender and ethnicity in scientific institutions and leadership
- Trials and standardization in science making
- Openness and secrecy in the dissemination of scientific knowledge
- Amateur scholarship, lay practice, and citizen science
- Trust and authority in scientific discourse and policy
- Scientific movements, ideologies, and related historiographical narratives

**Submission:**

We welcome submissions for individual papers as well as symposia which combine 3 or 4 papers. Proposals should be submitted by filling in the relevant template (in attachment), which can also be found on the [website](#)

**For Symposium proposals:**

To submit your symposium proposal, send the filled-in template as an attached file by email with subject line: “ESHS 2022 Symposium Proposal” to [eshsbrussels@gmail.com](mailto:eshsbrussels@gmail.com)

Symposium applicants should not also submit an individual paper proposal, unless they have been notified of the rejection of the symposium proposal. The status of the symposium proposal will be announced well before the closure of the call for papers.

The deadline for symposium proposals is 31 December 2021, 23:59 CET.

**For Paper proposals:**

To submit your paper proposal, send the filled-in template as an attached file by email with subject line: “ESHS 2022 Paper Proposal” to [eshsbrussels@gmail.com](mailto:eshsbrussels@gmail.com)

The deadline for paper proposals is 21 February 2022, 23:59 CET.

We particularly encourage proposals that foster gender–equality and diversity, including researchers with various institutional affiliations, at diverse stages of their professional careers, with different geographical origins, and from underrepresented groups.

For further information: <https://eshsbrussels2022.com/>

## **School of Pacific and Asian Studies Graduate Student Conference**

The University of Hawai'i at Manoa will be hosting online its annual School of Pacific and Asian Studies Graduate Student conference from April 6-7, 2022. This year's conference theme is: "Technologies and Adaptations: Celebrating Innovations in Human Knowledge Across Asia." Our theme welcomes submissions from any discipline that tackles innovation and adaptation to technologies new and old in Asia.

Submit an abstract of 250-300 words by February 5, 2022 to [gradconf@hawaii.edu](mailto:gradconf@hawaii.edu)

Dr. Jennifer Robertson, Prof. Emerita at the University of Michigan will deliver the keynote address.

## **2022 International Committee for the History of Technology Symposium**

The 49th Symposium will take place virtually in 3 phases, each lasting two days. The 1st meeting will be in June (17, 18), the 2nd in September (24, 25), and the 3rd in October (15, 16). The Kranzberg Lecture will take place in June.

The general theme is "Technology-based and Technology-generated decisions." Whereas technology-based decisions have a long history, technology-generated decisions of so-called artificial intelligence, AI, are on the horizon since the turn to 21st century and might gain decisive influence within the next years. Which decisions we are willing to handle over to technology? How to define ethical guidelines for this development? The symposium aims to contribute to this discussion, based on a transnational perspective of history of technology.

The deadline for proposal is Sunday, 30 January 2022

For a long time, societies have considered technology a value-neutral instrument for various purposes, including decision-making by organizations. Between the end of the 19th and the beginning of the 20th century, technology progressively increased its pivotal role in societies: governments, companies, or individual people considered technology essential for living and surviving. But due to increasing over-saturation with technology, negative outcomes became visible and thus, subject of public discussion.

Technology is involved in decision-making in two ways: decisions based on technology and technology-generated decisions. Human societies are used to base their decisions thanks to technologies permitting them, for instance, data collection. Cartography was helpful in decisions such as financing exploratory expeditions traveling, trade, or military operations since the early modern era. In the contemporary World, high-resolution satellite images are the base for the decision-making process in military operations or identifying places where it could be possible to extract mineral and oil resources.

Moreover, new technologies often inspire new ways to perform old tasks (e.g. imaging technologies in medical diagnosis) and inspire taking on new tasks (think military rockets being applied to spaceflight). Second, the design and manufacture of technology require decisions that affect how it works, how it is used, how it is manufactured, etc. Certain decisions regarding material properties, usage scenarios (e.g., usability), and areas of application require different types of production. Conversely, the type of production chosen (technology, process, etc.) influences the possible uses of the technology and its artifacts.

### **Suggestions for more specific questions, derived from the main question:**

- What are the social/historical/cultural conditions of technology related decision-making?
- Decisions on science and technology: inclusion and citizen participation
- What are the ethical conditions of technology-generated decisions?
- Which transnational perspectives can be taken regarding technology-inherent decisions?
- How do these technology-inherent decisions affect the critique of technology (e.g., impact factor in science, “publish or perish”)?
- Technocracy is a well-researched topic. What is state of the art in this field? Any new approaches, theories, empirical findings?
- Data recording and processing is a core task now carried out with computers. Which technologies were used – and where and how – before the advent of computing?
- Modern challenges and technology based/generated decisions (e.g., climate change, COVID-19 pandemic, individual health, and public health); artistic strategies involving technology/generated decisions; body, dis/ability and technology based/generated decisions
- The role of images (maps, photographs, etc.) in decision making.

The symposium covers all periods and all areas of the globe. In keeping with a cherished tradition of the field, the meeting is open to scholars from all disciplines and backgrounds. Gender-related and worldwide topics are specifically welcome. Besides contributions to the main theme of the symposium, paper, and session proposals on different topics of the history of technology are welcome.

### **Proposal Guidelines:**

ICOHTEC welcomes proposals for individual papers and posters, but preference will be given to organized sessions of three or more papers. The Programme Committee will also consider submissions not directly related to the symposium theme providing that they relate to the

history of technology broadly defined. All proposals must be in English and should be submitted electronically by 30 January 2022 via our website <http://www.icohtec.org/w-annual-meeting/> (will be available, soon). For suggestions about preparing your submission and the conference presentation, please consult the guidelines on [www.icohtec.org/proposal-guidelines.html](http://www.icohtec.org/proposal-guidelines.html) In addition to the scientific programme, the symposium will include plenary sessions, special sessions for the prize winning book and article, the general assembly of ICOHTEC. If you have any questions related to the scientific programme, paper, poster or session proposals, please, do not hesitate to contact Jacopo Pessina, the chair of the programme committee, at [j.pessina87@gmail.com](mailto:j.pessina87@gmail.com)

We encourage graduate students to submit proposals and to participate in the symposium.

Members of ICOHTEC and low-income people pay a reduced fee.

INDIVIDUAL PAPER proposals must include: (1) a 300-word (maximum) abstract; and (2) a one-page (maximum) CV. Abstracts should include the author's name and email address, a short descriptive title, three to five key words, a concise statement of the thesis, a brief discussion of the sources, and a summary of the major conclusions. If you are submitting a paper proposal dealing with a particular subtheme in this CfP, please indicate this in your proposal. In preparing your paper, remember that presentations are not full-length articles. You will have no more than 20 minutes to speak, which is roughly equivalent to 8 double-spaced typed pages. For more suggestions about preparing your conference presentation, please consult the guidelines at the conference website. Contributors are encouraged to submit full-length versions of their papers after the conference for consideration by ICOHTEC's peer-reviewed journal ICON.

PANEL proposals must include (1) an abstract of the panel (300 words maximum), listing the proposed papers and a session chairperson; (2) abstracts for each paper (300 words maximum); (3) a one-page CV (maximum) for each contributor and chairperson. Panels should consist of three or four speakers. Several panels may be organized on one topic.

We encourage the creation of panels which examine technology-based and technology-generated decisions in different parts of the world, enabling international comparisons, and contributing to an emerging transnational historiography. We welcome especially contributions from beyond Europe and the United States, which so far have been less fully covered by historians of technology.

The programme committee reserves the right to relocate papers to different themes and add papers to panels.

POSTER proposals must include (1) a 300-word (maximum) abstract; and (2) a one-page CV. Abstracts should include the author's name and email address, a short descriptive title, a concise statement of the thesis, a brief discussion of the sources, and a summary of the major conclusions.

## **31st Annual World History Association Conference, Bilbao, June 2022**

The World History Association (WHA) will hold its [31<sup>st</sup> Annual Conference](#) in Bilbao, Spain from June 23 – 25, 2022. This conference, co-sponsored by the University of the Basque Country, will be located at the Bizkaia Aretoa Building on the banks of the River Nervión. The conference theme will be “Distance, Mobility, and Migration,” although submissions on other historical themes are also welcome.

The Call for Papers (CFPs) is open. The trilingual CFPs and proposal submission forms can be found on the [conference homepage](#). **Proposals are due by November 30, 2021, or January 15, 2022 (see website to determine which deadline applies to your submission).**

Limited scholarships will be available for our 2022 conference; first priority goes to deferred awardees from our 2020 conference. Eligibility requires paper submission.

## **University of Leeds History & Philosophy of Science Seminars**

*School of Philosophy, Religion & History of Science*

These seminars take place alternate Wednesdays 3.15-5pm online via TEAMS

Please register via the Eventbrite links given below.

December 8. Doreen Fraser (University of Waterloo, Canada)

“Formal analogical reasoning in quantum theories”

Register for this via seminar via Eventbrite<<https://www.eventbrite.co.uk/e/doreen-fraser-philosophy-of-physics-tickets-176885287657>>

## ***EMPLOYMENT and DEGREE PROGRAMS***

### **PhD Positions in the History, Philosophy or Sociology of Science (Germany)**

The Research Training Group (Graduiertenkolleg, GRK)

“Transformations of science and technology since 1800: topics, processes, institutions” at the University of Wuppertal, Germany, (funded by the German Research Foundation) is seeking doctoral candidates who will be starting their employment from April 1st, 2022 for a time of 3,5 years.

This graduate program is a joint project of the research groups of history (history of science and technology, history of mathematics), philosophy (philosophy of science, philosophy of physics) and sociology (sociology of science and organizations) in the **Interdisciplinary Centre for Science and Technology Studies (IZWT)** at the University of Wuppertal (Germany). It focuses on the analysis of topics, processes, and institutions of transformations in science and technology

with particular attention to the historical contextualization and the complex interactions of those three dimensions. Each position consists of a postgraduate scholarship (six months) which is followed by three years as research assistant (f/m/d) at 65% of standard working hours (paygrade: E 13 TV-L).

You can find more information about the program, the participating professors, and the application process on the <https://www.izwt.uni-wuppertal.de/en/homepage/research-training-group-2696.html> website of the GRK.

The program equally addresses graduates of history, philosophy and sociology, in particular of history of science and technology, philosophy of science and sociology of science and organizations, natural sciences (e.g. geosciences or physics), mathematics, engineering, empirical education research, as well as other (interdisciplinary) graduates in the fields of the social sciences and arts faculties.

Please find more information about the requirements and tasks in the [https://www.izwt.uni-wuppertal.de/fileadmin/izwt/Graduiertenkolleg/Jobs/Job\\_description\\_Doctoral\\_candidates.pdf](https://www.izwt.uni-wuppertal.de/fileadmin/izwt/Graduiertenkolleg/Jobs/Job_description_Doctoral_candidates.pdf)

Application deadline: 15 Jan. 2022

## **Call for Applications for Ph.D. program “Knowledge and Its Resources”**

A new international PhD program in the field of the history of science that will start in September next year: The International Max Planck Research School “Knowledge and Its Resources: Historical Reciprocities” (IMPRS-KIR).

The IMPRS-KIR is a collaboration between the Max Planck Institute for the History of Science, Freie Universität Berlin, Humboldt-Universität zu Berlin and Technische Universität Berlin and will be hosted at the MPIWG in Berlin-Dahlem. We seek for proposals with focus on regions around the globe and on any historical time period. The deadline is January 31, 2022. The program will start September 1, 2022, in Berlin.

Please find the Call for Applications:

[https://www.mpiwg-berlin.mpg.de/sites/default/files/inline-files/Call%20for%20Applications\\_IMPRS-KIR\\_0.pdf](https://www.mpiwg-berlin.mpg.de/sites/default/files/inline-files/Call%20for%20Applications_IMPRS-KIR_0.pdf)

## **Curator and Director of the Whipple Museum of the History of Science**

Applications are invited for the permanent position of Curator and Director of the Whipple Museum of the History of Science. The Museum is integral to the Department of History and Philosophy of Science and houses an internationally important (Designated) collection of scientific instruments. The duties of the office include curatorial responsibility for the preservation, augmentation, and display of the collections of the Museum, and for making

them available for purposes of study and research. The new Curator and Director is also expected to undertake museum-based teaching and/or general history and philosophy of science teaching in the Department, to an extent compatible with due performance of her or his curatorial duties. The post-holder would also be expected to conduct independent research in areas allied to the interests of the Department. Candidates should have substantial curatorial experience in history of science. Relevant teaching and research experience in the history and philosophy of science are also an advantage. The successful candidate should be able to take up the appointment on 1st October 2022, or as soon as possible thereafter.

The University joined the Advance HE's Race Equality Charter in 2016 and received the REC Bronze award in November 2019. Women and candidates from a Black, Asian, and Minority Ethnic background are particularly encouraged to apply for this position.

Once an offer of employment has been accepted, the successful candidate will be required to undergo a basic disclosure (criminal records check) check.

Visit <https://www.jobs.cam.ac.uk/job/32362/> to view further details and apply online

Closing date: 25 December 2021

Longlisting: Early January 2022

Informal meetings and interviews: February 2022

Information on the Museum can be found at <https://www.whipplemuseum.cam.ac.uk/>

Information on the Department: [www.hps.cam.ac.uk](http://www.hps.cam.ac.uk)<<http://www.hps.cam.ac.uk>>  
For more on the University of Cambridge see [www.cam.ac.uk](http://www.cam.ac.uk)<<http://www.cam.ac.uk>>.

Any further queries regarding this position can be addressed to [jobs@hps.cam.ac.uk](mailto:jobs@hps.cam.ac.uk)<<mailto:jobs@hps.cam.ac.uk>>.

Please quote reference JN29001 on your application and in any correspondence about this vacancy.

The University actively supports equality, diversity and inclusion and encourages applications from all sections of society.

The University has a responsibility to ensure that all employees are eligible to live and work in the UK.

## **Assistant Professor in History and Philosophy of Health and Medicine**

The Department of Philosophy at Durham University seeks to appoint an outstanding philosopher to the role of Assistant Professor. We welcome applications from those with research and teaching interests in any area of the history and philosophy of health and medicine, broadly construed so as to include the history and philosophy of biomedical ethics, biomedical science, epidemiology, and public health, global health, and psychiatry.

Job title: Assistant Professor in History and Philosophy of Health and Medicine  
Vacancy reference: PHIL22-2  
Department: Philosophy  
Grade: Grade 7 – Grade 8  
Salary Range: £34,304 - £50,296 per annum  
Working arrangements: The role is full time but we will consider requests for flexible working arrangements including potential job shares  
Open date: 15 November 2021  
Closing date: 6 January 2022 at Midnight (UK)  
Preferred start date: Successful candidates will ideally be in post by 01 September 2022

Information: [https://durham.taleo.net/careersection/du\\_ext/jobdetail.ftl?job=21001453&tz=GMT%2B00%3A00&tzname=Europe%2FLondon](https://durham.taleo.net/careersection/du_ext/jobdetail.ftl?job=21001453&tz=GMT%2B00%3A00&tzname=Europe%2FLondon)<[https://durham.taleo.net/careersection/du\\_ext/jobdetail.ftl?job=21001453&tz=GMT+00:00&tzname=Europe/London](https://durham.taleo.net/careersection/du_ext/jobdetail.ftl?job=21001453&tz=GMT+00:00&tzname=Europe/London)>

## **Assistant or Associate Professor: The History of Medicine & Health, Before 1800**

Applications are invited for a 5-year fixed term Assistant or Associate Professorship in the History of Medicine and Health before 1800, to start on 1 September 2022 or as soon as possible thereafter. Responsibilities will include contributing to all aspects of undergraduate and graduate teaching, assessing graduate applications and student funding applications, supervising, and examining, leading research activities in the history of medicine and health, and various administrative duties for the Department.

Applicants must hold a PhD (or equivalent) and have an outstanding record of excellence in teaching, research, and publication in the history of medicine and health before 1800. The appointment will be made at either the Assistant or Associate Professorship level, depending on the successful candidate's experience. The Department offers an exceptionally stimulating and supportive interdisciplinary research environment and the opportunity to develop undergraduate and graduate teaching in the post-holder's areas of expertise.

The starting salary is dependent on the level of appointment being made, as determined by the Selection Committee. Assistant Professorships will start in the range of £42,149 - £53,348 per annum; Associate Professorships will start in the range of £56,587 - £60,022 per annum.

The University joined the Advance HE's Race Equality Charter in 2016 and received the REC Bronze award in November 2019. Women and candidates from a Black, Asian, and Minority Ethnic background are particularly encouraged to apply for this position.

Fixed-term: The funds for this post are available for 5 years in the first instance.

Once an offer of employment has been accepted, the successful candidate will be required to undergo a basic disclosure (criminal records check) check.

Applications are welcome from internal candidates who would like to apply for the role on the basis of a secondment from their current role in the University.

Visit <https://www.jobs.cam.ac.uk/job/32300/> to view further details and apply online.

Closing date: 25 December 2021

Longlisting: Early January 2022

Informal meetings and interviews: February 2022

For information on the Department of History and Philosophy of Science see [www.hps.cam.ac.uk](http://www.hps.cam.ac.uk),

For more on the University of Cambridge see [www.cam.ac.uk](http://www.cam.ac.uk).

Please quote reference JN28947 on your application and in any correspondence about this vacancy.

The University actively supports equality, diversity and inclusion and encourages applications from all sections of society.

The University has a responsibility to ensure that all employees are eligible to live and work in the UK.

## **Assistant Professor in Non-Western History of the Sciences, before 1900**

Applications are invited for a permanent Assistant Professorship in Non-Western History of the Sciences before 1900, to start on 1 October 2022 or as soon as possible thereafter.

Responsibilities will include contributing to all aspects of undergraduate and graduate teaching, assessing graduate applications and student funding applications, supervising, and examining, leading research activities in the history Department.

Applicants must hold a PhD (or equivalent) and have an outstanding record of excellence in teaching, research, and publication in the history of science beyond the West and before the twentieth century. An ability to work in non-European languages is desirable. The Department offers an exceptionally stimulating and supportive interdisciplinary research environment and the opportunity to develop undergraduate and graduate teaching in the post-holder's areas of expertise.

The University joined the Advance HE's Race Equality Charter in 2016 and received the REC Bronze award in November 2019. Women and candidates from a Black, Asian, and Minority Ethnic background are particularly encouraged to apply for this position.

Once an offer of employment has been accepted, the successful candidate will be required to undergo a basic disclosure (criminal records check) check.

For further information and to apply visit  
<https://www.jobs.cam.ac.uk/job/32310/>

Closing date: 25 December 2021

Longlisting: early January 2022

Informal meetings and interviews: February 2022

For information on the Department of History and Philosophy of Science  
see [www.hps.cam.ac.uk](http://www.hps.cam.ac.uk)

For more on the University of Cambridge see  
[www.cam.ac.uk](http://www.cam.ac.uk).

Any further queries regarding this position can be addressed to  
[jobs@hps.cam.ac.uk](mailto:jobs@hps.cam.ac.uk).

Please quote reference JN28955 on your application and in any correspondence about this vacancy.

## ***FELLOWSHIPS, GRANTS, and PRIZES***

### **Turriano ICOHTEC Prize 2022 - Call for Submissions**

The Turriano ICOHTEC Prize is an Early Career Prize for Books on the history of technology, sponsored by the Juanelo Turriano Foundation and consists of 2,500 Euro. The prize-winning book will be presented and discussed at a special session of the next ICOHTEC symposium, that will take place as part of the 27th International Congress for the History of Science and Technology.

ICOHTEC, the International Committee for the History of Technology, is interested in the history of technology, focusing on technological development as well as its relationship to science, society, economy, culture, and the environment. The history of technology covers all periods of human history and all populated areas. There is no limitation as to theoretical or methodological approaches.

Eligible for the prize are original book-length works in any of the official ICOHTEC languages (English, French, German, Russian or Spanish) in the history of technology: published or unpublished Ph.D. dissertations or other monographs written by scholars in the early stages of their career. Articles and edited anthologies are not eligible. If the work is a Ph.D. thesis, it should have been accepted by your university in 2020 or 2021; if it is a published work, the year of publication should be 2020 or 2021.

For the ICOHTEC Prize 2022, please send an electronic copy (PDF or Word) of the work you wish to be considered for the prize to each of the four Prize Committee members. (Note: Hard copies are only accepted for published works not available electronically.) Your submission must be emailed no later than 28 February 2022. Please also include an abstract of no more than a half-page in length. If your book is in Spanish or Russian, please also supply a summary in English, French or German of about 4,500 words. In that case, the prize committee will find additional members, who are familiar with the language in which your book is written.

The submission should be accompanied by a CV (indicating also the date of birth) and, if applicable, a list of publications. Applicants are free to add references or reviews of the work submitted.

Any materials sent to the prize committee will not be returned.

Send a complete application by email to each of the following Prize Committee members:

Dr. Darina Martykánová (Chairperson)  
Universidad Autónoma de Madrid  
Departamento de Historia Contemporánea  
Facultad de Filosofía y Letras

## **2022-23 Fellowships at the Beckman Center, Science History Institute**

The applications are now officially open for 2022-23 Fellowships at the Beckman Center of the Science History Institute.

This year, the Beckman Center introduces new Curatorial Fellowships, two-year full-time staff positions in the Othmer Library and the Museum intended for historians and other academic researchers in the history of science who are seeking professional opportunities outside of academia. The Beckman Center is located within an institution that boasts a full and active professional staff in each of these fields, allowing for a full support to researchers seeking careers in libraries and museums in addition to those conducting scholarly research.

These new fellowships complement the full slate of research fellowships for 2022-23, which includes 12-month Research Postdoctoral Fellowships for recent PhDs, 9-month Dissertation Fellowships for graduate students, 4-month Distinguished Fellowships for senior scholars, and 1-4 month Short-Term Fellowships for researchers of any professional background, as well as the 1-2 week Library Travel Grants.

Information about all of fellowships, along with an FAQ, a Guide for Applicants, and the application portal itself, can be found at <https://www.sciencehistory.org/fellowships>. This cycle's application deadline is January 15, 2022.

Any questions should be addressed at [fellowships@sciencehistory.org](mailto:fellowships@sciencehistory.org)

## **School of Philosophy, Religion and History of Science at the University of Leeds Applications for Research Postgraduate Study Commencing 2022/23**

### **About Us**

With around ninety current research postgraduates, and over seventy academic staff (many of whom offer PhD supervision), the School is a friendly and vibrant academic community, and has an impressive international reputation in each of its constituent fields.

Research is focused within and between six highly active research centers:

- \* Aesthetic, Moral, and Political Philosophy
- \* History and Philosophy of Science
- \* Inter-Disciplinary Ethics Applied
- \* Metaphysics and Mind
- \* Philosophy of Religion
- \* Religion and Public Life

For more information about the school and its research centers: <https://ahc.leeds.ac.uk/philosophy>

## Application

Information about research postgraduate study in the school and the application procedure is provided at <https://ahc.leeds.ac.uk/philosophy-research-degrees>. In addition, questions regarding the application procedure may be directed to [ahcpgradmissions@leeds.ac.uk](mailto:ahcpgradmissions@leeds.ac.uk).

Those interested in applying are advised to contact potential supervisors at an early stage. You should contact them by email, either directly or through the subject lead for postgraduate research relevant to your subject area:

- \* Dr Darren Bradley for Philosophy ([D.J.Bradley@leeds.ac.uk](mailto:D.J.Bradley@leeds.ac.uk))
- \* Dr Rob Lawlor for Applied Ethics ([r.s.lawlor@leeds.ac.uk](mailto:r.s.lawlor@leeds.ac.uk))
- \* Prof. Emma Tomalin for Theology and Religious Studies ([e.tomalin@leeds.ac.uk](mailto:e.tomalin@leeds.ac.uk))
- \* Prof. Greg Radick for History and Philosophy of Science ([G.M.Radick@leeds.ac.uk](mailto:G.M.Radick@leeds.ac.uk))

## Funding

Full, regularly updated information on upcoming funding awards and deadlines, including application procedures, is provided via the University of Leeds Postgraduate Scholarships site <http://phd.leeds.ac.uk/>. Check back for the latest information.

Please note that several of the funding application deadlines fall in January.

The White Rose College of the Arts & Humanities will be offering approximately 45 AHRC Open Competition PhD studentships across the Universities of Leeds, Sheffield, and York for 2022 entry and has a closing deadline for the open competition of 17:00 on Wednesday 26 January 2022. <https://wrocah.ac.uk/funding/prospective-students/>.

In addition, watch out for deadlines for China Scholarship Council-UoL Scholarships in January, Leeds Doctoral Scholarships in March, **Arts, Humanities, and Cultures Scholarships** in March, and **School of PRHS Scholarships** in March.

## History of the Human Sciences Early Career Prize 2021-22

*History of the Human Sciences* – the international journal of peer-reviewed research, which provides the leading forum for work in the social sciences, humanities, human psychology, and biology that reflexively examines its own historical origins and interdisciplinary influences – is delighted to announce details of its prize for early career scholars. The intention of the annual award is to recognize a researcher whose work best represents the [journal's aim](#) to critically examine traditional assumptions and preoccupations about human beings, their societies and

their histories in light of developments that cut across disciplinary boundaries. In the pursuit of these goals, *History of the Human Sciences* publishes traditional humanistic studies as well work in the social sciences, including the fields of sociology, psychology, political science, the history and philosophy of science, anthropology, classical studies, and literary theory. Scholars working in any of these fields are encouraged to apply.

### **Guidelines for the Award**

Scholars who wish to be considered for the award are asked to submit an up-to-date two-page CV (including a statement that confirms eligibility for the award) and an essay that is a maximum of 12,000 words long (including notes and references). The essay should be unpublished and not under consideration elsewhere, based on original research, written in English, and follow *History of the Human Science's* [style guide](#). Scholars are advised to read the journal's description of its [aims and scope](#), as well as its [submission guidelines](#). Entries will be judged by a panel drawn from the journal's editorial team and board. They will identify the essay that best fits the journal's aims and scope.

### **Eligibility**

Scholars of any nationality who have either not yet been awarded a PhD or are no more than five years from its award are welcome to apply. The judging panel will use the definition of "active years," with time away from academia for parental leave, health problems, or other relevant reasons being disregarded in the calculation.

### **Prize**

The winning scholar will be awarded £250 and have their essay published in *History of the Human Sciences* (subject to the essay passing through the journal's peer review process). The intention is to award the prize to a single entrant but the judging panel may choose to recognize more than one essay in the event of a particularly strong field.

### **Deadlines**

Entries should be made by Friday 31<sup>st</sup> January 2022. The panel aims to make a decision by Friday 29<sup>th</sup> April 2022. The winning entry will be submitted for peer review automatically. The article, clearly identified as the winner of the *History of the Human Sciences* Early Career Prize, will then be published in the journal as soon as the production schedule allows. The winning scholar and article will also be promoted by *History of the Human Sciences*, including on its [website](#), which hosts content separate to the journal.

## To Apply

Entrants should e-mail an anonymized copy of their essay, along with an up-to-date CV, to [hhs@histhum.com](mailto:hhs@histhum.com)

## Further Enquiries

Questions about the prize, or anything relating to the journal? Please email [hhs@histhum.com](mailto:hhs@histhum.com)

## “Sensitive Provenances:” Junior Scholars Short Time Fellowships

The Volkswagen Foundation-funded research project “[Sensitive Provenances](#)” investigates the provenance of human remains from (proto-)colonial contexts in two collections at the University of Göttingen. This project aims to investigate the origin of human remains, the circumstances of acquisition, their transfer to academic collections, their use for research and teaching as well as their contemporary socio-political meanings. Alongside research, the project is establishing contacts with representatives of regions from which these human remains originate, discussing their future handling and initiating restitution processes. The project focuses on human remains from Oceania and Africa. The Sensitive Provenances project is interdisciplinary and combines different methodological approaches from historical-critical provenance research, cultural anthropology and biological anthropology and welcomes inquiries and applications from potential fellows in these and related fields.

The focus of the project is a) on the “Blumenbach Skull Collection,” which was initiated by the natural scientist Johann Friedrich Blumenbach (1752-1840) and today comprises about 800 skulls, of which about 200 are of non-European provenance; and b) on the “Anthropological Collection,” originally created in Hamburg's Museum für Völkerkunde. This collection contains about 1,200 human remains from Oceania and Africa. Our preliminary research suggests that currently the University of Göttingen holds remains from regions that correspond to contemporary: **Australia, French Polynesia, Hawaii (USA), Indonesia, Kiribati, Malaysia, Marshall Islands (USA), Micronesia, Nauru, New Caledonia, New Zealand, Palau, Papua New Guinea, Samoa, Solomon Islands, and Vanuatu, in Oceania**; and from Cameroon, Congo, Guinea, Kenya, Namibia, South Africa, and Tanzania, in Africa.

We are seeking to award six short-term fellowships, each lasting from two to three months, for junior researchers from Africa and Oceania who would wish to engage with our project. We are open to all kinds of small projects that propose new perspectives, expand or challenge what we do. The topic, questions, research methods and interests of the fellows are deliberately kept open in order to facilitate broad perspectives on collections of human remains, their colonial histories and contemporary meanings and treatment.

Queries from the fields of History & Archives, Museum Studies, Social & Cultural Anthropology, Biological Anthropology, Indigenous Studies, and related areas are welcomed. We also invite proposals for artistic research and interventions that critically engage with the main themes of the project.

The scholarship holders will receive a monthly stipend of 2.100 €. Pending on individual circumstances, a replacement allowance and a family and childcare allowance can also be made available. The travel costs to and from Göttingen will be covered. During the research stay in Göttingen, the scholarship holders will receive support in different organizational and content-related matters.

Pending on the pandemic situation and travel restrictions, each visiting fellow will be invited for a three-months stay in Göttingen, in the second half of 2022 (specific dates are negotiable). The visiting fellow, depending on the needs and specificities of their proposed project, will be connected to researchers and experts in the following fields: history, cultural anthropology/ethnology, biological anthropology, provenance research, curatorial practice, museum practice and exhibition organization; or more specifically with the [Seminar for Medieval and Modern History](#), [Institute of Cultural Anthropology/European Ethnology](#), [Historical Anthropology and Human Ecology](#), [Centre of Anatomy](#), [Centre for Collections Development](#), or the newly established [Forum Wissen](#).

Applications will be considered on a rolling basis until March 2022. In order to apply, please send the following documents to Dr. Christian Vogel ([vogel@kustodie.uni-goettingen.de](mailto:vogel@kustodie.uni-goettingen.de)):

- Cover letter (specifying the motivations and interests of the candidate)
- A description of the proposed project/activities for the period of the scholarship (max 1000 words) - CV

For further queries please contact Dr. Christian Vogel ([vogel@kustodie.uni-goettingen.de](mailto:vogel@kustodie.uni-goettingen.de)).

## **Scientific Instruments Society Research Grants for 2022**

The Scientific Instrument Society (SIS) awards small grants, of up to £750 each, for research on the history of scientific instruments. Applications for the 2022 SIS Grants Scheme are now open; the deadline for applications is 1200 GMT on **Friday 7 January 2022**.

To learn more of the Society, or to join, visit <http://www.scientificinstrumentsociety.org/>

The short application form may be found at <http://www.scientificinstrumentsociety.org/grant-application-form>

Applicants do not need to have any institutional affiliation and applications that are for less than the maximum grant are just as welcome — a properly costed proposal with a clear relevance to the Society’s interests in historic scientific instruments, a realistic timetable and a clear tangible result or question to be answered are the most important factors that the committee will be considering.

Successful grant holders will have 18 months from the date of award to complete their research and claim the funds.

Grants are open to applicants from any country, and both members and non-members of the Scientific Instrument Society may apply. Previous applicants are also welcome to apply, provided that an article based on their first research grant has already been submitted to the SIS Bulletin.

Please note that the grant awarded will be paid against actual receipted expenditure and funds cannot be paid in advance. The grant is intended to cover items such as travel, accommodation (excluding meals) and photocopying costs. We are unable to fund attendance at or travel to conferences or contribute to the cost of outreach projects such as events and exhibitions.

Further information on what the Society can support and the terms and conditions of the grants can be found at <http://www.scientificinstrumentsociety.org/grants/>

Examples of previously successful applicants may be found at <http://www.scientificinstrumentsociety.org/previously-supported-projects/>

*Questions?* For any questions regarding SIS grants, please e-mail [grants@sis.org.uk](mailto:grants@sis.org.uk)

***HoST – Journal of History of Science and Technology***

[HoST - Journal of History of Science and Technology](#) is an open access, on-line peer-reviewed international journal devoted to the History of Science and Technology, published in English by a group of Portuguese research institutions and De Gruyter/Sciendo. HoST encourages submissions of original historical research exploring the cultural, social, and political dimensions of science, technology, and medicine (STM), both from a local and a global perspective.

Past thematic issues have dealt with topics as diverse as circulation, science communication or the relation between science and politics. Future issues might deal with both established and emerging areas of scholarship. The editors of HoST are looking for proposals for one thematic dossier to be published in 2023 (HoST volume 17, issue 2). The thematic dossier should be prepared by the guest editor(s) and include four research papers along with an introduction.

### **Proposals should include the following items:**

- An abstract describing the topic for the thematic dossier and its significance (500 words);
- A list of the contributors along with the titles and abstracts (300 words) of the four research papers;
- Brief CVs (300 words) of the guest editor(s) and authors.

The guest editor(s) and the contributors must be prepared to meet HoST's publication schedule:

- Abstract and titles submission: 15 January 2022
- Submission of complete research papers: 30 December 2022
- Publication: December 2023

Proposals will be subject to approval by the Editorial Board and the outcome will be announced to the authors by February 2022.

Submissions should be sent as an e-mail attachment (preferably in one single .doc, .docx, .rtf or .odt file), to the chief-editor: [chiefeditor@johost.eu](mailto:chiefeditor@johost.eu)
